Revisiting the Galactic Federation of Worlds and the Anunnaki: Truth or Deception?

https://www.youtube.com/watch?v=OTeT5v2UF9E 63m 4-20-2026

Dani Henderson has had contact with members of the Galactic Federation of Worlds (GFW) and other extraterrestrials who she found to be benevolent, but questions of infiltration and deceptive practices make her leery of supporting any off-world organization including the GFW. Similarly, she believes the Anunnaki in general, and the alleged return of Enki/Ea to atone for past misdeeds, should not be trusted.

In this interview with Dr. Michael Salla, she also discusses assertions by leading politicians such as Vice President J.D. Vance that aliens are demonic, and the existence of a Collins Group that promotes negative stereotypes of extraterrestrials. They also examine the role of Satanic Ritual Abuse in conditioning victims for various projects associated with secret space programs.

Dani is the author of *Angels, Demons, and Aliens* (2023), where she writes about her lifetime of direct physical encounters with benevolent and malevolent entities that have appeared to her since early childhood. She is also the organizer of Galactic Spiritual Informers Connection (GSIC), which brings together leading extraterrestrial contactees, secret space program witnesses, breakthrough technology inventors, SRA survivors, and exopolitics researchers. Her next GSIC features David Icke and Billy Carson and will be held from September 10-12 in Eastbourne, UK.

DR. SALLA: Dani Henderson is an extraterrestrial contactee and a psychic. She has written a book titled *Angels, Demons and Aliens.* She is the organizer of the Galactic Spiritual Informers Connection and she has been interviewing a lot of people, a lot of researchers in contactees concerning what is happening in the world today concerning extraterrestrial life and the deep state. And today she is here to reveal the latest findings that she has gathered from her research and her contacts.

DANI: I am very passionate about disclosure, for disclosure of everything, very much an Aquarian kind of pusher, disruptor. I came into the world to rattle people's demons to help them wake up lovingly or with a bit of a slap here and there. I created the greatest disclosure event conference on the planet to bring the best speakers to tell the truth on everything uncensored. I am really for humanity. I am really against any kind of control that has been going on with the satanic occult that we absolutely do live under. The system that we live that we are born into, I am into breaking that, bashing that, exposing that because we are organic humans and we didn't come here to live in this digital prison that we are currently presented with or have our skies sprayed, our food, our air, our water poisoned, our children jabbed, our elders being bumped off. No, we came to claim this beautiful planet. I hope that answers your question.

DR. SALLA: It wasn't too long. No, that's good. That's good. So JD Vance, Vice President of the US, recently did an interview where he said, all aliens, as far as he knows, are demons. So what do you say

to that? What would you say to JD Vance if you had like 15 minutes with him?

DANI: I'll probably give him a slap. I am not impressed with that man at all. I always get a funny feeling, how he just looks at someone. I'm sure people look at me and go, I've something wrong with her and that's okay, I don't mind.

But there's something not quite right in the man. I can't put my finger on it. I'd like to see if I can see him because when I look at him and I go to connect or just read energy, there's some kind of a shielding. There's something that's not quite computing and he's got shifty eyes.

Anyway, moving along from that, he's coming at this subject, in my opinion, and somewhat of a Christian. There's a Christian, a very Christian kind of mindset where when Christians believe every single thing they've ever been told and don't go into questioning or don't push back a little bit on what's in the Bible without realizing that they can, they can do that. You often get that, oh, no, aliens are demons. That tells me this person's never ever had an interaction. They are all different energies. They come in on much different frequencies. The angelics are very high vibrational harmonic. It is unmistakable when you connect to that higher beautiful kind of presence of an angelic being, a demonic depending on their level of darkness, their lower vibration resonance. They come in on a much different, the really dark demonics come in almost, you could audibly on a growl. I mean, there's no mistaking then you've got kind of earthbound people that want to get in your field, those that are addicted. And there's a different element there. That's more of a human frequency. And then the ETs, the ETs because the ETs are so different .

So let's say you have a Pleiadian come in. That's a different harmonic too. You know, that's why I wrote my book *Angels, Demons and Aliens.* It's not only expressed that, but to give highlights and lots of different explanations of how these beings, these species represent themselves. So back to J.D. Vance, he is not equipped to say without proof that a demon is an alien. It's not true. But what they do is a reptilian will mimic itself to be a demon. A demon will pretend to be an angel.

So there is mimicry going on so people can be fooled. But fundamentally, in my experience from birth to now, they are all different species

DR. SALLA: . I think that's excellent that we understand that whole kind of demons and angels dichotomy in terms of different types of extraterrestrials, some being positive or benevolent, others being very negative and dark. Now J.D. Vance, I mean, very interesting. I mean, he may well become the next president of the United States. So, I just wondered, do you, would you think he would be one of those figures that was briefed by a group within the national security system in the US and this probably is the same in other countries, Britain, Australia, Canada. I'm sure they have others who are knowledgeable or read into the whole UFO extraterrestrial connection, but have this kind of orientation that extraterrestrials are demonic.

Now, you've probably heard of Nick Redfern. He's a British research and he wrote a book where he talked about the Collins, the Collins group or the Collins elite. And this is a group that absolutely believes extraterrestrials are demonic and they tend to focus on the Gray abduction phenomenon. Louis Elizondo, he talked about the Grays and the demonic extraterrestrials that are associated or that the Collins group believes exist. And the day are the ones that are blocking disclosure because they believed, well, there would be a disaster if the truth was revealed and the public learns that extraterrestrials are here and they're demonic. So, to what extent do you think this is kind of like a really deep institutional, deep state problem?

DANI: Absolutely. I mean, who is read into what? Poor old Louis, he had a motorbike accident the other day and he's really smashed his head. So, hopefully that will help him wake up to a few things. But I think he's handled controlled opposition. Sorry to say, they'll only let them say so much. Who are they to even dictate to us humanity when we're going to be ready?

How rude, how insulting. There are so many of us awake now, we could more than handle, they are scared what we will do to them when we when it's revealed the horrible system that people in the

governments around the world, in the militaries around the world, the Black magic spelling, the satanic occult.
I's all one big beast system. This is what people need to wake up to. Nothing is separate, nothing. So, who are they to say that we won't be able to handle demonic attacks? We've got the monarchs reading the news. **We've got the monarchs running our countries.**
They're already here, they're already manifested. There are people that run this planet who have done soul contracts with high demonics. The demonics work on different systems.
One of them, what we call it, a principality, is a hierarchical system of pecking order. And the demonic's all the time are fighting for the top job, the top job, the top job. Some of these people on this planet are running their body and coexisting with demonic's who take over the body, who loosh, who carry out atrocities in order for them to feel.
This is common knowledge among many people and it needs to be mainstream, because we are looking with adulation and isolation at these people who are largely self-appointed, self-anointed. Now, you mentioned Collins. Now, is this the satanic Collins family that came over from England, went to America and largely populated areas of the military?
Because that's one of the big satanic or bloodline, 13 bloodline come, families, there's actually 26. It's always a mirror. So we got the Aussie news, the finazies, we got all the kind of European royalty and long bloodline families and Beppe Arceini, one of the popes. And we've also then got the Collins, the Rockefellers, the Rothschilds and all that. It's so dull, but they are in existence and they are, have been holding there has been a very much a stronghold. But if it is the Collins family you're referring to, I would recommend anyone to go and listen to when their tapes online, John Todd, because John Todd was originally John Collins.
And he came from England to America and he admits that his family peppered the American government with witches and warlocks. Now, I know some people will find that hard to swallow. Sorry, darling, but it is an absolute fact. We've been told and, and, and oh, there's no such thing as torture. Those are the days of the chambers and the dungeons and it all went away. No, it didn't.

It went underground. And their language is Latin. Oh, that's a dead language. No, it's not. It's just not there for us to access. So the things that we were told largely now are coming to light. You know, people are learning about the mothers of darkness. These are five high satanic women who are literally meeting with the devil meeting with Satan.
This supernatural paranormal dark system that we live within. It's very real. Now, it's not to scare people is to help them wake up to realities, to trust themselves on so many levels. But I do hope that answered your question because the Collins family, John changed his, they changed their name to Todd to hide when they started being revealed.
He became a Christian and he exposed the peppering of people, the what witches and warlocks throughout the military. And he also exposed the songs that when an album goes out that they do witchcraft and satanic occult and chanting over that. So they capture the minds of the children. That was one of the things that people can find those tapes online
DR. SALLA: Yes, that's a very intriguing connection. The Collins group and that Collins family. I don't know where the term came from. As I said, Nick Redfern, he was the first as far as I know to talk about the Collins group in his book. And I think it came in 2013. So I wanted to get an idea and maybe this is something that a lot of people in the audience don't know who maybe they know of you through the conferences, but don't know that you yourself have had a number of extraterrestrial contact experiences and some of these have been with the Galactic Federation of Worlds.
And so I mean, that's a very, well, today it's becoming more controversial as an organization. I mean, who is what is the Galactic Federation of Worlds? But why don't you first just explain your contacts and who you met and what your initial impression of the Galactic Federation was?
DANI: Okay, well, first of all, I have decided because somebody who was representing them, I have been displaying very negative, very false behaviors. I'll be specific. The person that talks about the Galactic Federation of Worlds that I have been very unhappy with

was supposed to bring certain things to the last conference, failed in doing that, took things upon themselves. And I said, right, you're not speaking at the next conference. You know, sip this one out. They did not take it well.
And there has been a constant, constant attack, verbal abuses. And this person actually said that I verbally abused them and I made them do this. I'm like, wow, wow. If this person is representing the Galactic Federation of Worlds, I am deeply, gravely concerned at who they are. How could they let this person display such atrocious behavior? In the past, the person would say, this girl's a Gray ET, this girl's a reptilian, and I believed her.
So you think you're doing good for humanity and saying, Oh, she's a Gray so wrong. So I've been absolutely the last six months, seven months, been undoing, as you know, made certain apologies privately and publicly for my behavior. You and I had a little break for a while as well, both given false information. And now we're all kind of coming back together and finding ourselves and it's so beautiful. And I have decided that because this person lied in public and made up stories and said that I was abusive and all these fantasy land stories. But this person has a following who are absolutely devoted, devoted. I mean, they will die on the hill and fall on the sword for this person. I mean, people are dishonest with themselves because they're so obsessed because they want to go on the spaceship or they want to be part of the pretend galactic federation ground system thing that this person's putting together and you can be part of it and you can be part of it.
And it's just such a nonsense. So because they lied about me, I'm like, what else did you lie about? And I can't believe that they represent this organization. So I believe very much, and I know absolutely, there is a galactic federation, of course, there is a galactic federation that have helped this planet that have supported and protected this planet. I do not believe there is a galactic federation of worlds, a galactic federation of light.
And we've seen the CIA documents proving that the galactic federation of light was a CIA, a CIA co-opted to do with the Grays.

And there's a galactic federation of aliens, there's a galactic federation of planets. It's very confusing.
So now I just focus on the galactic federation as a one kind of umbrella. There's absolutely no way that there could possibly be one particular individual person of any regard who is the sole representative of such a gigantic massive organization that behaves as badly as she does. So that's why I've decided absolutely not listening. And what was so beautiful, and I wish them well, I really do, I wish them well. But I don't give any honor or respect, I've removed most of any information that I ever shared, because now I'm concerned, what did I put into the field that this person said was reality?
But I've left a couple of videos up where they were saying they were going to bring spacecraft, not a fly over, but spacecraft, and they didn't. And that would upset a lot of people. And then this person's like, I am not a performing person. I'm like, mate, if you can bring spacecraft, that is a great trick, that is a party trick.
And I will say that I am so grateful to Thor Han Eredian. I have met that man. He is real. He is physical. And what I encountered with him the last time, over two years now, what a beautiful soul, what a humorous soul, what a strong man. I didn't pick up anything negative about this man.
I am so grateful that he bought spacecraft and work with the military here. You were there. I was there, Jean Charles, Melanie, Elena, Tony, Alex Collier. We were all there, and we saw her space fleet fly over. And you and I were shining the green pointy thing. Oh, it's amazing. That's one of the happiest days of my life. It really was. There was a true connection between a faction and what we saw. But where I see the problem that's come in with the person we're referring to. And I'd like to say love to Thor Han. Thank you, Thor Han. I'll be forever grateful.
I was in a very, very difficult, highly stressed situation at the last conference because she failed to stick to the contract and what she promised, made up all kinds of stories, and then said it was very, very, I'm like, well, just let Thor Han step down can step down for this one. It was misconstrued. It was just so awful.

So I send my love to Thor Han and my respect because what I physically saw and met with him and felt his energy. Good guy. Good guy. But I see the problems have happened since she bought in the Ea character or the Enki character. Now I can just see her, her fan clubs and, oh, just go Tina in particular, who's her right arm girl for causing trouble and bringing pain. I know we've both experienced serious pain attacks going into my architecture on YouTube, trashing my business, lying, removing, I mean, just deleting people. I'm just addicted that to you too.
And you've done it to loads of other people. These two, I've been quite dangerous out in the field when they're working together, like I said, but since that Ea bloke, Enki Ea came in. That's where a lot of the problems happened.
DR. SALLA: Yes, I think we'll come back to Enki Ea because I think that's an important issue to discuss. But as far as the Galactic Federation of Worlds is concerned and certainly the image we both got from the beginning from this person that you've been referring to was that the Galactic Federation was this kind of like idealistic pristine organization that ran really smoothly that had humanity's best interests at heart.
And they were like, they had this great plan to like, I bring about disclosure and they had done all this incredible work in ridding our planet or our solar system of negative ETs. And there was the image we got was the Galactic Federation was this pristine organization acting for the best interests of humanity. And I think that speaks to the psychology or the mindset of this person that you've been referring to.
Now, I personally now that I've had a little bit of time and space from her and got to interview and look at the work of Goshar and the cosmic agency, I think their image of the Galactic Federation of Worlds is probably more accurate that sure, there's a lot of good people in there doing good things, but there's also some dark elements, there's also some infiltration that there's also a lot of deals being made between the Galactic Federation. And it's important to say that the information from Cosmic Agency came out a few years

before you had this more idealistic version of the Galactic Federation coming out from Elena.
And I think just purely looking at those two sets of information that Goshar's information about the Galactic Federation and the role played by the Tageton extraterrestrials or late, well, actually, it's a group of Tageton's in kind of like presenting a more accurate account of what's going on and the backdoor deals that have been made between the elite, the leadership of the Galactic Federation and Earth leaders, that that's actually to me more accurate from an exopolitical perspective.
DANI: I met with her too, I bought her on my channel because the person we're referring to basically trashes anyone who seems to be any kind of competition, especially women, not able to handle again, that's why I'm like, you sure you're a world leader because you don't behave like that.
And just so everyone knows, I am not interested in bashing the women, I am so bored, I am so over it. This is way more important, this is our humanity, this is disclosure for a planet, it's not about a character or a personality, even if I'm sure they've brought some great stuff, some good stuff, but we got to move on and focus on what's right, look at caught up in a fan club and like I say, if you behave so badly and you lie in public, then what else have you lied about?
And she brought that on herself, I haven't spoken about this, I've added the odd comment here and there, but people have kept saying, please Dani, what happened, what happened, well, I'm telling you what happened, that's what happened.
And I have absolutely no fear because I'm standing in the truth, I have absolutely no fear of consequences, their magic, their curses, their black, whatever spelling they're doing, again, because they're very, the two of them is in particular, her and disco Tina clever, like very clever, and very Tina, very, very devious, very devious, I can't believe I was paying her every month to run my telegram channels that she helped to create and did a great job.
And then she took them down, that is criminal, people were hurt, people were stressed, anytime somebody asks a question, if it's not

an agreement with what the leader is putting out, they get blocked, I have had people come to me and say there's hundreds of us, we're so upset, we got blocked, we're nervous to come back and do a telegram group, in case it happens again, I'm like, you're fine, you're safe, that was nothing to do with me, that was disco Tina will collect, Mama, Christina Martin, whatever she calls it.

DR. SALLA: I mean, just kind of getting away from the personalities and not getting caught up in this personality did that. I'm interested in the ideas and to me, Elena Danaan put out this idea of the Galactic Federation of Worlds as this idealistic, almost perfect organization out there doing good, driving bad extraterrestrials out of our solar system and working with our elites to do the best for all humanity, being part of all of these disclosure initiatives.

So she put out that information in 2021. So I'm just looking at the information, I don't want to get involved, like discuss personality, because of the information that's important here. And that's the information she put out. And for a time, I was very much on board and supported that.

But this other information that was actually coming out earlier, and I remember being influenced not to look at it at the time, and I regret not looking at it seriously, was Gosha's information about the Galactic Federation, she presented it as a much more nuanced, compromised organization with both positive and negative elements in it.

And so she like made the claim that the Galactic Federation had made deals with the deep state or with the elite to kind of like hold back disclosure, because they think humanity isn't ready for it. And Gosha was really saying that that's just simply not true, that the Galactic Federation was really in charge in a much more profound way than anything we had been told by Elena. So yes, just in terms of the ideas that they've both presented, what's your take?

DANI: I think the thing is people look at the ETs, and unfortunately, a lot of people are in awe. They're just people, they're like us, they just got better equipment, better technology. They're not gods, they're not demigods, neither isn’t the Anunnaki and they are unable to misbehave.

Now, I'm going to tell you something I've never told anyone online, okay?
You remember Adana, Admiral Adana? Now, these are all people that we all kind of grew to have an affection for, even though we never saw them. Well, I did see them. But most people, they get, it's like a Jesus Christ thing. It's like, oh, then you start to get attached to the name, when you start to create a feeling, and you see images of them, and then you start to get drawn in, we've got to be so careful of them.
I was told that Admiral Adana is my sister. And the person we're referring to told me this in 2021, on a Zoom call, when they were connecting through their implant in their head to upstairs. And I was told that I am Admiral Adana's sister, and that I came back to Earth because she was pregnant, and I came in her place, okay? I totally believed that for a while, but this is one of the disturbing things.
I believe I was reeled in and then it appealed to my ego. But no one ever heard me talk about it, because, hey, I can keep a secret, and I've never done this for fame, for celebrity. I couldn't care less. I'm here for humanity. But I was told she is my sister, she is pregnant, and what's incredible is her husband, Admiral Adana's husband, lost his life upstairs on a craft, which is so sad.
She went on to have a daughter, and then I lost my beautiful husband in a very quick and violent way as well. He dropped it from a heart attack, unfortunately. Anyway, so I really believe that for a while. And again, I never told a person. No one's ever heard me talk about it because I'm not here to brag and show off and go, I am Admiral Adana's sister, because at the end of the day, who cares? Who cares?
And anyway, then some time later, I was told, and they're actually not her sister. I remember thinking, wow, why would somebody that I had some respect for upstairs and tell me that? Why would they lie? Why would they reel me in? And I'm like, oh, maybe you were just reeled in.
So again, to your point, there are misbehaviors, there are egos involved, there are stories to make us all feel special, and more than,

and that's my take on it. So you've never heard me talk about that, have you, or in public?
DR. SALLA: No, no, I haven't. Well, one of the important claims that has been made is that negative extraterrestrial factions were forced to flee our solar system back in 2021. And there were a number of sources that made that same claim, and also that on the Earth, that negative extraterrestrials had been driven off.
But I always thought that was especially questionable. So yes, so some kind of question for you is, is it true that negative extraterrestrial factions have been driven off, driven away from our solar system and driven off the Earth or is there a kind of more nuanced thing going on here?
DANI: I feel and sense, but I don't know for definite, that there are still reptilian activity, given the fact that before we, apparently, because who knows what the real story of Earth is, we're still trying to figure that out, but there were already reptilians, not necessarily negative ones that came here. I feel like when we look at certain people, Bill Gates, total example, reptilian, reptoid, sociopathic, psychopathic, Pelosi, same thing, they're hybridized with others, or they're sharing a soul space, or they're walking into these vessels, or there's an element of the demonic, but with the reptilians, it is clear to me that there is still some kind of intervention happening.
That's what I think. I think the Anunnaki bloody reptilian, that's what I think. So yes, and look how they're trying to influence through a particular person, to be the all singing or dancing, and also I was told by the same person, and again, I'm just going to land it because it's true, and I do not lie, Ea apparently has Gray blood, has Gray ET blood within him, .
So she can answer to that because I was told there. And I when this person, this Ea, is saying things like, my children, I am your father, that just rubbed me the wrong way, always, because the gods that's never worked, it will never work on our planet, the one leader.
No, it doesn't work for us. We live pulsing together, like when we were like the Lemurian way, the laughing way, unification of everything. So no, I feel the Grays are not, I feel the Grays are not

here in the way they were, I really do. I can't answer why, I really feel it, but I still think there is a reptilian interaction there.

DR. SALLA: Okay, yes, I would agree with that. I think that their reptilians are actually have been on Earth for a long time, millions of years, and they haven't been driven off by the Galactic Federation, maybe fleets of off world reptilians from other star systems, maybe, I think they would probably be driven off, but the ones who are indigenous to Earth, and the ones who are kind of like guests of those indigenous reptilians are probably still here, and still doing a lot of negative stuff.

Now, I think it's very important what you said about Enki or Ea, because yes, he's been promoted as a good guy, as this Anunnaki you can trust, and I think that maybe the role he's playing is probably the good cop in this good cop, bad cop routine that Enlil and Enki play that they've played that role for a long, long time.

I mean, you can look, you can look at the Ennuma Alicia, and it talks about the role of Enki Enlil in the wars against Tiamat and Kingu, and so you have this kind of like change of roles, but historically, Enki and Enlil have always been in this conflict, and you've had supporters of one or the other saying, well, this particular Anunnaki is someone you can trust, and I think this speaks to the core issue here, which is to what extent should anyone, anyone who's now opening up to all this information, kind of like take the word of one of these beings, whether it's Enki, Ea, or whether it's Enlil, you, or anyone else, why you should take the word of that being as this, as something that's infallible, that you should accept them as kind of like, you're almost as your God, I mean, talking about them in terms of like they are your God without saying it in so many words.

DANI: Yes, I agree with you, it's just, it's absolutely ridiculous, and given the fact that there are monstrous people on the planet here, physical people who are trying to create themselves into god-like beings through absorbing the children's energy and children's body parts, unfortunately, and all this awful horror that happens.

They are determined, they are terraforming the planet still, that's another reason why I still think about their reptilians in part being here, because they are terraforming, blocking out the sun, making it

colder, poisoning us, changing the entire climate, it's being done by them, of course, we know that, people are waking up to the fact that it's not us humanity is a mass, it's these awful hideous monstrous beings in human form who are trying to be terraformed, lit for lizard environment for reptilian environment, I've always kind of had that thought, I don't think it's as prevalent as it was, but I noticed that the spraying is even worse, we got a come to Bill Gates, the other reptilian in a minute, but I hope that answers your question so far, does it?

DR. SALLA: Yes, that's good, thanks. Well, I want to move on now to the US-Iran War and the claims that quite a few people are making is that behind the scenes, behind the actual war and the kind of like geopolitical explanations that this is all about oil, this is all about nuclear weapons and uranium enrichment, that what's really going on is that there's this kind of hidden war behind the scenes involving things like Stargate, ancient technology and giants, so I mean have you gotten any information on that?

DANI: There's absolutely Stargate technology in existence along with DUMBs, so highly advanced that all our militaries are fully aware of, not everyone in the bases is totally read in, but they are absolutely, and it has been said over and over again, long term down the timeline, that Mesopotamia, the crescent.

They call it the crescent as well, Iran, let's say just focus on Iran, Iran, Iran, Iran, is going to be one of the final bastions of the shift and the change into the kind of the awakening, the humanitarian awakening, there's so many things that have been predicted over many, many eons that are all leading to this point, and I absolutely fully believe, and I've heard it from so many different people, that the Stargate in Iran is absolutely being fought over, and a lot of people weren't aware of all the technology, but it's so terrifying also to think that when these technologies fall in the wrong hands, you go to Jerusalem right above the two monuments, the wall and above the wall where you've got the Christian or Jewish energy.

Christian energy, and you've got the Muslim energy just above, and the right above there is another portal, another Stargate the people on the way talking about it very much attuned to the Pleiades,

apparently that one, they're all over the world, they are absolutely real, and people that are read in beyond the 3D that we're living in, the story that we live in, they are absolutely aware of those, and there are many, and there is a war for that technology, because there's a war for our planet, people off planet want our planet.

DR. SALLA: Well, one of the views that's being pushed in terms of why the US decided to kind of like launch this air war, a missile campaign against Iran was because, well, Donald Trump is kind of following the greater Israel agenda, and that he's being hoodwinked by the Israeli lobby to just kind of like get the US involved in a war that doesn't meet US national interests, but just is all about protecting Israel's national security interests.

So Trump is kind of like a tool of the Israelis and of the prime minister, Netanyahu, that's one view, the other view is that Trump is working behind the scenes with something called the Earth Alliance, White Hats, and that these involve actors from all over the world fighting against deep state influence and negative extraterrestrial influence, and that they launched this campaign against Iran because the negative ETs were working very closely with the Iranian regime, because they do a lot of bad things to people.

So the negative energies match, and so they're wanting to bring a stop to that, and the way to do that was to kind of like launch this campaign, and behind the scenes, get their special forces teams into Iran to seek out the Stargates, the exotic technology, and so forth.

So is Trump kind of like a dupe of the Israelis, or is he an enlightened leader working with the Earth Alliance?

DANI: I mean, to be perfectly honest, if we look down the timeline of Trump, he's always been a bit of a twat, hasn't he a buffoon, a clumsy man, not the most sophisticated, and right now, if you look at him, you could easily see, you could easily say to yourself, depending what lens you look through, that he is walking in the new world order, he's acting like Alexander the Great conquering empires and putting his stamp on it.

You can see all of that, and on the other side, you can always look at the things that have actually happened over these years, and go, oh my gosh, is he really the good person that they say he is.

.And then you can hear people even thinking as they're watching this, but he eats babies, and he does this. Does he though? Do you have proof though? The Epstein farce came along as a massive distraction, and to blow people apart and ruin their reputation and their lives. Now in 2007, if people care to look up legally and politically, Trump banned Epstein from Mar-a-Lago, because Epstein, the filth monster, was trying to get it with one of his friends' daughters.
Okay, 2007, people are putting pictures out there, or the two of them together, and we don't know, we've got to stop doing that, we've got to stop doing that, because it's a destruction, and people have got to stop, just reel back and think.
That's why I'm, like I say, tearing, breaking down what's been going on with me in truth, because you've got to step back, stop listening to gossip, stop getting caught up in groups, and not focusing on what's happening.
If Trump is really playing both sides, he's out of war, he's doing the greatest acting job there ever was on the planet, as long as I'm concerned, because I do not know. I can, years ago, a woman, a scientist, brilliant woman, she wanted to pay me to read the energy of Biden and Trump, and she wanted me to influence Biden winning, and I said to that lady, I am so sorry, there's absolutely no way I would ever, ever do that.
We cannot manipulate energy, there's a consequence to that, I will not do it, but I had a little look, I had a little look at these two men, and it was before the Georgia tombstones, I call them were blown up, right, and who knows who blew them up, I don't know if that was the galactic federation, I have no idea, no way of knowing it is, and I looked at Biden, and he had these blocks around him, these black grey blocks, like the Georgia tombstones, which is representing the New World Order, right, and looked at Trump, and he was surrounded by light, and his feet were off the floor, and it was just a snapshot, and I wasn't invested either way.
I just had a look like you do, like using your, and everyone's got it, our intuition, I don't really call it psychics, everyone's got intuition, and I was surprised at that, but people are so split, and they cannot

allow themselves, I say all the time, stop choosing a side, because there's good on both sides there's always good peppered in everywhere, quick, just sit back, because the war is also for our souls, every soul is a goal of the dark, they will get you any way they can, so choosing a side is a loser's game, just stand strong you mentioned David Icke before we came on there, David Icke speaking at my next conference,
David cannot bear Trump, now am I not going to have David speak just because he absolutely loathes him? Of course I'm not, that would make me a loser I'm not going to let that dictate my actions, because nobody actually knows. We've never been in this position in our lives before, in this war that we're currently in, there he is.
Now we're having a new website built, and I'm horrified to see the words here slightly off, but I think that's because there's people in there creating a brand new beautiful website as we speak, but there he is, David Icke doesn't whisper truth, he detonates it, and this man is one of the brothers, everything he's said in the past has pretty much come true, hasn't it?
DR. SALLA: Well, I mean I've been a long-time admirer of David Icke, I mean when I first started beginning doing my research, I mean he and Alex Collier were really the two people that most impressed me at the time in terms of speaking the truth about the reptilian extraterrestrials on our planet and the influence they were playing
And I know David has kind of like continued to point out the influence of these reptilians, the shape-shifting reptilians, and how they have kind of like infiltrated the ruling elite and the kind of royal families in many countries, in most countries actually, and I think that's absolutely the truth that most world leaders or people that are part of the royal families in countries like England or in Denmark or whatever, that they have been infiltrated by these reptilian shape-shifters.
Yes, so I think he's on the right, he's being correct about that for decades. As for Trump, well I personally disagree. I think with his take on Trump, I think Trump is someone that is working with the Alliance for positive reasons, but could also understand why others

would criticize Trump for like being beholden to the Israeli lobby. On the surface level you can look at all of that and say yes, the Rothschilds bailed him out when he was on the verge of bankruptcy in the 1990s, and now as president he's doing Israel's bidding. So yes, I think you could quite easily dismiss Trump, but I think there's more to him, and I kind of really respect what you saw in your kind of like energetic evaluation of Trump.

DANI: Yes, yes, as we go through the rest of the speakers while we're here, and you speak in England. Oh, okay, hi, hello.

DR. SALLA: I was going to bring up Kathy O'Brien because she's someone that I haven't interviewed just because I always felt that, I mean her book *Transformation of America* was really the most difficult book I ever had to read, and I read it from cover to cover, and I never really talked about it because I thought it was so, I mean it was exposing so much, and it kind of like brings up this whole element of the satanic elite and what they do with the SRA, so yes, maybe you can just point out why it's so important that we consider what people like Kathy O'Brien have to say.

DANI: This lady has endured and survived torture beyond torture and maiming, and she was trained as a little girl into, unfortunately, she was used in pornographic films as a baby from birth, from newborn by her dad. He got caught sending porn through the post, and the CIA picked it up and said, right, well, either we put you in prison or we'll get you to train Kathy to be a presidential model, the same level as Marilyn Monroe, and unfortunately, Kathy has been passed around. She has been horrifically harmed by Dick Cheney, by Alex Foster, the French, there so many names in her book. Hillary Clinton, she was prostituted to Reagan, these men, they sit around passing people around, they do whatever they want to them. They're sitting there carving up the world, they're giving contracts to different countries, they're deciding who gets the water in what country, who gets the oil. These men are horrific. In her book, and this was during the George Bush senior administration, which is when she was used in these ways, that she's bringing most of those revelations.

So she has survived it, she has been speaking out for 36 years, Michael, 36 years, she's a very close friend of mine, I absolutely adore her, and she's one of the bravest people, and if you want to sit in front of somebody who has a high angelic harmonic and who is so healed, it's Kathy O'Brien.

DR. SALLA: Yes, definitely a very special soul there, and I think people really do need to hear her story, and understand the big picture of how a lot of women, kind of, well actually, women and men are tortured, that get involved in these programs.

A lot of the people that have been interviewing who claim to also be galactic envoys and star seeds or walk-in. I mean they talk about, at a very early age, being identified and being psychologically, emotionally, and physically abused, and that that was part of the training for them being involved in these different programs, so I think there's a lot of Kathy O'Brien's out there that have been used in different programs, like Kathy was, like you mentioned, the Monarch Project that she was part of that. So just how prevalent, I mean in your work, and you've done a lot of therapy and you've helped a lot of people deal with emotional trauma. How prevalent is this kind of like abuse, extensive abuse and the satanic element in that?

*50m

DANI: It's terrifying, it is so rife in so many people, so one of my friends, her name is Dr. Julia Engel, she's 77 now, she's one of the first children ever used in the MK Ultra program, the first one, in San Diego, can you believe that, in San Diego, and she was part of the first program that included Mengele, can you imagine Michael, Mengele tortured this little girl, he was called Dr. Green, there was always Dr. White's and there was always a Nanny Black, and the Nanny Black was a man.

This is a military style operation where these children were completely ruptured on every level, they used to strap her down on a wheel, spin her round, all wearing dark cloaks and say over her, there's no light, no dark, no male, no female, no nothing, no up, no down, no round, they were trying to expel soul fragments from her, her father, this is Dr. Julia Engel, her father sold her at six years old and then watch this little child be deflowered, is the best way of

putting that awful, awful thing and she broke in that moment and then endured years and years and years.
She's an amazing lady. She, years later, went out to Russia, she's responsible for changing the Russian birthing rooms in insisting that the mothers get to hold their babies at birth, that wasn't happening in the 70s, so she's a great story of somebody who's come through that, but this child torture programming has been happening for so many eons, decades. They choose the children who were super clever in the gifted programs, as we know.
Tony Woodriggs is a good example of that, they also choose children who are on the autistic Asperger's element two, so they go for different spectrums to bring in this trauma and torture.
And this is just so deep, it's such an awful Pandora's box and a deep, deep hole, but it is absolutely prevalent. I interviewed this lovely girl Coco Ryder, her dad was a very, very famous singer in England, Sean, for a band called The Happy Mondays. She's on my channel. She was targeted probably because of the things that they go, it's unthinkable, the layers that all this trauma goes through, look at Diddy.
So I have a theory, so I call him a sacrificial lamb for the music industry, somebody had to be shown up and shut down. So they would just go right, he's in prison for that, he was the baddest guy, no it's not, it's multi-levels high, multi-levels deep.
Then you've got Prince Andrew in England, stripped of everything because Virginia de Frei, who was trafficked by Epstein as well, exposed him, right? I believe they took her out because she exposed and took a leg out from the royal family.
When I read her book, again this is all part of your question, how many children go through these programs. When I was reading her book there was one paragraph in there where she said, I'm nervous to name other people, but maybe at some point I will and I got this punch in my chest.
Oh my god that's what got her killed, that's what got, because it was a veiled threat, it didn't keep her safe. It is so many layers deep, you got Weinstein who was made an example of in the film industry, Diddy for the music industry, Epstein for the finances and every

single one of those elements, there's blackmail, there's filming, there's people with children.
I mean the whole children element, the looshing of the children, the soul frequency energy, the blood, the everything, the adrenachrome. It is absolutely on levels and layers and it's all been exposed and it is all coming out and there is so much proof, but they're muddying the waters, oh let's say Trump did that, let's say this person did that, and I've got to pull back and just take it one by one and not be, gossiping unless we absolutely have heard from us, why is it witness testimony like I'm doing here, people who've actually been through that.
DR. SALLA: Right and one of the other speakers at your upcoming conference in Eastbourne, England is Max Logan, and she's also an SRA survivor and I think as I was kind of like pointing out that this is much more common than people would want to acknowledge, that this kind of Satanic Ritual Abuse, it's almost like a rite of passage for a lot of the elites to be able to reach the higher levels.
I mean there's that Dutch banker who talked about how he was quite okay in bankrupting entrepreneurs on behalf of the deep state, that he was happy to do that, but then he was asked to do some things with children and that kind of led to an emotional breakdown. tt was very clear that these SRA rituals involving children are kind of like the rite of passage for the elite to be able to reach the highest ranks, so what can you say about Max Logan and this kind of like a SRA world and all that goes on in it?
DANI: The information that comes out of that lady is just so shocking, it is on the same level as Kathy O'Brien and we're all friends together, I interviewed everybody on my channel last week, the round table for this year's GSIC, oh my god you should hear what she says there, but basically she was born into a high diplomatic family.
Her uncle would take her to Italy every single summer and she would be trafficked underneath the Vatican, she sat in a chair to Satan down there, one of the things that happened to her once is she was put on a crucifix overnight and they put five other little crucifixes around her and they put animals on there and hammered the animals and made that little girl watch it.

They frack and they break and they destroy these children that are then, when they're grown-ups, a lot of them are then put into global leadership positions, think of the young leaders through the World Economic Forum which is one of the most responsible parties for this satanic occult playing out.
Max is so brave the information because you're going against the church, the demonic the seat of Satan under the Vatican. So yes her story is just harrowing and I just admire her so much. She's got so much insight into the levels, the layers, the structure of the satanic occult and those who are practicing this under the Vatican and it's very real and it's still happening today.
DR. SALLA: So now just to kind of like bring us back to the beginning when we talked about demons and JD Vance believing that all extraterrestrials are demonic, I mean to one extent is all of that a result of this kind of like a world of SRA rituals kind of like pervading this highest level of government and getting them to kind of like really operate in a world of darkness and demons and satanic rituals.
DANI: These people without question use religion as a weapon also it's all weaponized, everything's weaponized, so there will either come at you as kind of the Christian side of it, but also what they're forgetting, here's an easy way to do it, all you have to do is when you see these world leaders, for example, in these presidents and senators and vice presidents, when they talk about God, someone needs to have the courage to say which God, what is the name of your God?
Is your God Satan or Lucifer, bees rebound, these people, presidents are made and chosen, global contracts are given at the Bohemian Grove.
I did I just a drop recently with Kathy O'Brien, it is real, it is not conspiracy, how many more conspiracy theories or tin, they're so rude people and what tin full hat nonsense to make you feel stupid and try and put you off track, these elite governmental men and women, these global leaders, these high end military personnel, every system you can imagine.

These big corporations, actors, all the structures, science, education, music, everything, religion, everything, it is peppered with these horrific awful people that run and implement a beast system.
They hate us, they want to take over, everything, they are doing their best to lock us down again, they are genociding the elders, they are genociding the children and jabbing them and trying to transhumanize them, bring them into being a certain type of human, they are playing the long game.
This has been going on for thousands of years, thousands of years we'll peacock into each other and this is the final time, now the humans are rising up, now us organic humans, not synthetics with implants, okay.
Don't be a synthetic human guys, don't choose the implant, you know that. “Oh you can only talk to aliens, if you have technology,” Bollocks, not true, a lie and a trap and an ego trap and a trick, but yes, JD Vance and stuff, like I said, I think he's a right dodgy geezer, I just get funny vibes when I look at him. I don't trust him at all and like quite simply people have to say who is your god. What is your god. What is your god, I hope that answers your question, it's a big one.
DR. SALLA: Yes, it's a challenging question, so just to kind of wrap it up, I mean, you got a conference coming up in Eastbourne, London, we've talked about some of the speakers, any kind of final words you want to share about why people should be there. I know you have JP that I've been working with for nearly two decades now. He'll be a prominent speaker there and you have some other really great speakers. So yes, you want to share some final words about your G6 2026?
DANI: Yes, thank you so much. Well I've gathered again the greatest speakers on the planet for disclosure, it's important to come to England because it's such a pivotal time and we are in disclosure, it's not happening in 2027, it's happening now, it's been happening all last year. It's all happening now and this is not about like our conversation part of it bashing a certain person, we are way beyond that, this is truth time.

This is go time. This is owning yourself time and at my conferences as you know, you've spoken at most of them over these many years, Michael, that it is about bringing people together.
It is uncensored, we drop so much information that you won't hear on YouTube because we'll get shut down and that he's bringing the greatest speakers together, verified and proven with documents, with evidence, no one standing on that stage just telling a story of whatever, they are absolutely in and on the top of their game and they are here for the involvement and the advancement of humanity as they should be.
DR. SALLA: So people should just go to Galactic Spiritual Informers Connection for the website and to get the lineup of speakers and registration and as you mentioned I've been at most of the G6 and unfortunately because of my health I couldn't join the last couple but I certainly support what you're doing with G6 and I know a lot of the speakers and think they're wonderful people and so I wish you all the best for G6 in Eastbourne and wish I could be there with you all, but maybe 2027 I'll be able to come and speak again.
DANI: Yes I've left a space for you my love because I've got a three year waiting list, everybody wants to speak at G6, but I left to Michael Salla, but just there for you. So really thank you for having me my love I appreciate you and guys I hope that it was easy to kind of take on the information and I send love to so many people where everybody and don't get caught up in the gossip and it was time to tell the truth about certain things, but this is not about bashing one person from earlier this is about the rise in humanity it's never going to be about one person who all got a rise together. Be honest when you've messed up as I've done I'll network on yourself everyone's healing something and be okay with it. Thank you
DR. SALLA: Thank you Dani Aloha. Aloha.
